Work Experience

Software Engineering Manager
JUNE 2016 - PRESENT
Software Engineering Team Lead
FEB 2016 - JUNE 2016
Senior Software Engineer
JAN 2015 - MAY 2016
Adknowledge - Kansas City, MO

I lead and contributed to a team of five mid to senior level engineers developing and maintaining several large scale and highly available mobile and web applications for the AdStation team. Our focus is new product development, support and maintenance of existing web services, user interfaces & backend data models, as well as migration to cloud infrastructure. I work daily in a mix of technologies including Java, PostgreSQL, PHP, Javascript, Bash Shell, HTML/CSS, and Python in a multi-server Linux production environment.

PHP Web Developer
2014 - 2015
Intouch Solutions - Overland Park, KS

I was the lead backend developer for all PHP-related projects. I worked on a variety of client projects with different server environments and requirements. I lead development, deployment, training, and maintenance using various technologies including WordPress, CodeIgniter, Magento, custom PHP frameworks, Javascript and more.

Senior Software Developer and Analyst
2013-2014
The University of Texas School of Law

Web Developer
2008 - 2013
KLRU-TV Austin PBS, Austin TX

Education
Bachelor of Sciences, Computer Science
Bethel College - North Newton Kansas
